

RCRMC is dedicated to providing quality medical care and outreach services to the residents of Riverside County. The medical center sponsors and participates in a variety of outreach events throughout the year to offer valuable healthcare information to the community.

Through these outreaches we have the opportunity to introduce high school students to rewarding careers in healthcare, feature injury prevention fairs highlighting bike safety and vehicle safety, and host the community at our annual RCRMC Health and Safety Fair.

Everyone is invited to attend these events.

Planning an event, career fair or health fair for your organization? Give us a call at (951) 486-4450 or fax your information to (951) 486-4475. We will be happy to participate and have the opportunity to inform the residents of Riverside County about our programs and services here at RCRMC.
